EDUCATION

AMERICAN UNIVERSITY OF BEIRUT (AUB)

Bachelor of Engineering, Computer and Communications Engineering

GPA: 4.0/4.0, Dean's Honors List, Minor in Business Administration

Beirut, Lebanon

Aug 2021 – Expected Jun 2025

UNIVERSITY OF TORONTO

Exchange Student

Toronto, Canada

Sep 2023 – Dec 2023

- Completed projects and key courses there: Intro to Machine Learning, Advanced Algorithms, Programming Languages

PROFESSIONAL EXPERIENCE

CME OFFSHORE

Full Stack Developer Intern

Beirut, Lebanon

Jun 2024 – Jul 2024

- Designed and implemented a user-friendly and responsive frontend interface using ReactJS, HTML, and CSS
- Developed the backend using Django, handling data processing, Rest API development with proper error handling
- Created the NoSQL database with MongoDB for efficient storage, retrieval, and management of document data
- Integrated Firebase for secure user authentication and authorization, enhancing the overall security of the application
- Coordinated with team members to integrate NLP, GenAI, and web scraping features into the backend

PROJECTS

StudentHub | React, GraphQL, FastAPI, Hugging Face

Dec 2024 – Present

- Collaborating with a **META** Software Engineer on a team project to develop a centralized Student Life platform for AUB
- Building intuitive and responsive UI components with React and NextJS, to ensure a smooth user experience
- Developing APIs for core features such as schedule builders, class reviews, and automated group chat creation
- Designing and implementing a course specific Q&A chatting platform using FastAPI, PostgreSQL, and GraphQL, enabling students to ask and answer questions within their enrolled courses
- Developing an intelligent chatbot leveraging Hugging Face's LLM and Retrieval Augmented Generation to provide accurate, context aware responses about AUB and the courses using documents retrieved from web scraping

Unifind | AWS, React, Bootstrap, Flask

May 2024 – Aug 2024

- Collaborated with two **Amazon** Software Engineers through the Amazon Industry Program to develop a website that gathers and displays information about universities in Lebanon, helping high school graduates find their ideal university
- Utilized AWS services, including AWS Amplify for hosting, AWS Lambda for backend functions, API Gateway for API management, AWS Bedrock for chatbot integration, and DynamoDB for the database throughout the whole project
- Developed our frontend using React and our backend with Flask for easy integration and to focus more on AWS services
- Presented the project on the closing ceremony led by WIE x Amazon in presence of the jury of **Amazon leaders**

Multi-platform Exchange Tracker | Python, Java, React, Flask, JavaScript, HTML, CSS, Kotlin, SQL

Jan 2024 – Apr 2024

- Designed the backend of a comprehensive exchange tracker platform, enabling currency management across platforms
- Implemented a secure user authentication system for sign-in functionality enabling users to add transactions
- Integrated a credit card system enabling users to add balance, facilitating money transfers between users
- Developed a time series forecasting RNN capable of predicting the exchange rate at a future date based on user input
- Handled user management system, including email notifications for password recovery and significant rate fluctuations
- Generated statistical information on exchange rates and fluctuation graphs based on user-defined time periods

EXTRA CURRICULARS

Institute of Electrical and Electronics Engineers (IEEE)

Webmaster and Event Officer

Beirut, Lebanon

Aug 2024 – Present

- Led IEEE website development and maintenance, working with the cabinet to enhance the presence for 200+ members
- Contributed to IEEE initiatives beyond web development, engaging in event planning and community building efforts

Association for Computing Machinery (ACM)

Active Project Member

Beirut, Lebanon

Aug 2024 – Present

- Chosen from over 400 applicants to work on a project enhancing the AUB experience with the mentorship of a **Meta** SE
- Engaged in programming sessions and events, networking with fellow programmers and enhancing my technical skills

SKILLS & PERSONAL

Languages: Arabic (Native), English (Fluent), French (Fluent)

Computer Skills: Microsoft Office (PowerPoint, Excel, Word), Python, C++, Java, React, Flask, HTML, CSS, JavaScript, GraphQL

Interests: Basketball, Swimming, Squash, Ping-Pong, Travelling, Board Games
